17th	Amber	N/A	###							0	6	5	0	6	5

#### Ranking

> Fencers will be seeded from 1st to last, based on the number of **Victories** achieved

> Any fencers achieving the same number of **Victories**, will be separated based on who has done so in the least amount of **Matches (V/M)**

I.e. the fencer achieving the most victories in the least matches will be ranked higher than a fencer who achieves the same number of victories in more matches

> Any fencers who achieve the same number of **Victories**, in the same number of **Matches**, will be separated on **Points**.

The fencer scoring the most points will be seeded higher.

> If fencers are tied in all three criteria they will have a joint position. Any ties at the end of the year (December) will be separated via a standard D.E. match

#### Notice for all fencers

> If a fencer needs to leave early they will forfeit their remaining matches. No hits will be recorded, just the victory. Please mark this on the poule sheet with a X for the fencer that left early

**Please** mark this on the poule sheet with a **X** for each match not fenced for the fencer who left early. Their opponent should have a **V/OLE (Opponent left early)**

> If a match is stopped due to a technical fault/running out of time to finish then no victory will be recorded but hits will count for both fencers

**Please** mark on the poule sheets the scores followed by /DNF (Did not finish) e.g. 3/DNF

> If possible please check results as they are written down/end of the club night. Amendments can of course be made after ladder but it helps save any confusion

> Each year your top 2 results will be used for seeding into the Easter Club Competition and your top 6 results will be used for seeding into the Club Christmas Turkey Competition
